## Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) \*

Current list as of 17/04/2014. Founder, captain and current general manager of the faculty of engineering rugby team. SPE Alexandria university student chapter president. Leo club of Alexandria member.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices? (300 word limit imposed) \*

Well for starters, I really don't get what you mean by that question, but I will answer based on my understanding, the most important thing I learned from being a manager is sometime you have to make tough decisions, and when you make these decisions they have to be done for one purpose only, the prosperity of what ever you are managing regardless of anything else but breaking the law s.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) \*

When I first entered SPE Alexandria student chapter, I entered as a member and we were a dead chapter, I started calling people I knew who had experience with this type of things and gained some knowledge, put it into action, motivated the president to do so wild actions and take a step forward, we had some differences but in the end we could help a vast number of students at my university through this student chapter.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result? (300 word limit imposed) \*

Two months ago we faced a major breakdown in the SPE board, that was the removal of our local chapter booth on campus due to the lack of maintenance, and it was the end of the season so our funds were running low, hence we can't afford to buy a state of the art booth, and we can't hire a local carpenter because it just won't do it, so I studied and with some practice I am one week to finishing that booth and it will be running on our major event on May the 3rd.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) \*

When I first entered the faculty of engineering I was really disappointed about the fact that A lot of people who would be good rugby players can't play rugby, so I took the initiative to start a new rugby team under the supervision of a government administration, we faced a bucket load of problems in the beginning with paper work and the fact that rugby is not an authorized sport by the government, but today Raptors -the Faculty of engineering rugby team- has won the Egyptian B league, finished it's first season, and was invited by the college administration to play in a university event for publicity.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) \*

Just recently I was facing the fact that we are invited to play in the Egyptian rugby cup, our coach is traveling to Kenya to get the next coaching degree, and the fact that we don't know how the semester will go, so after a lot of thinking, I agreed with the team that we are not entering the cup and that we will end our season with a huge game instead, finish strong, which we won by the way, and we will come every week to play for fun once, and for the new guys they will learn rugby from the other senior players, that way we will not be disappointed, we will not lose our new players, and most important we will have plenty of time to study just in case our exams were pushed forward.

## General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

Still in the third year of college.

Do you have any health problems that could affect your future employment? If yes, please specify:
