Work Experience

Please give details of any work you have undertaken, indicating whether full-time, part-time, vacation work or industrial training etc (most recent positions first).

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

Head Of Management department in Student Life Organisation in my high School for 2 years (2009-2010) and (2010-2011). Responsible for creating and managing events. Member at Student Union Academics Committee AUC Fall 2013, Responsible for responding to students inquiries, solving their problems, participated in peer to peer advising. Financial Coordinator Academics Committee Student Union Spring 2014, Responsible for the finances of the committee and coordinating any financial matters related to committee projects and activities

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

Although majoring in accounting and general business administration, I'm interested in a career at HR department since I'm minoring in psychology. I've always heard about HR work training employees and developing their skills. I'm more interested to work in such field rather than accounting and finance field. I believe that I have gained skills from real life related to HR that I can use in such position. Example of such skills are leadership, ability to help and train people and finally guide people to the right path.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

When I got my position as a financial coordinator in the academics committee student union. I was in somehow new environment. A financial coordinator in the student union of a high class university such as AUC deals with a very high amount of money. not limited to so, but I had no experience as well in such position and in dealing with such high amounts of money. So in the first few weeks when the semester began. I was totally inexperienced had no idea what to do. through my network and the people I know, I started asking fellow financial coordinators from other committee and clubs to come and help me, to guide me and tell me what to do. successfully, by the end of the semester now, I'm proud of myself and can say that I am a successful financial coordinator and the proof of my success is that fellow coordinators now a days seek my help and advice.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

Well I know this might seem stupid however that came in my mind. my parents believe that minoring in psychology is a waste of time, effort and money. However I totally disagree with them. I'm into Psychology, I really do like it and enjoy its classes. in order to satisfy myself and my parents. I got studied hard in my first 2 years of college, got a scholarship that covered my minor fees, I take 6 courses every semester instead of 5 courses in which the 6th course is a psychology course. I manage my time well so that I do well in all 6th courses. and thanks god im doing well in all of my courses till now. my love to psychology is the reason why I'm applying for HR first choice instead of finance and accounting.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

when I was in school, I saw an opportunity to make better use of the human resource we had. we had many students in the student life organisation that came to the office everyday and willing to help but never found something to do. I started trying to work on that. I started creating new events and activities at high school with fellow students and tried to engage as much students as possible. The obstacle that I faced was how to make all these students come together how to make them dedicated to work through out the semester and not just for 1 2 days. however I successfully made them dedicated and created 3 events in my high school that still run till today even when i graduated. The 3 events are: 1- Valentine cards and candy 2- Bake Sale 3- Easter eggs and chocolate

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

as mentioned before, im a financial coordinator. we had an event called SU Real life in the university, I was responsible for budgeting 50,000 EGP and allocating them to different activities. part of my job task was to keep record of all payments and receipts and to submit a report at the end of the event with all the payment receipts. however things went in the wrong direction, the members started spending money without receiving receipts, At the end of the event we had a gap of 6,000 EGP of missing receipts that were not available. this was a problem and hard situation. however I was able to deal with it. through the help of some other students we were able to track some of the missing amounts and we were able to get proofs about where the 6000 EGP were spent.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

I'm still a student, im not yet exempted from military however I do have a high chance of exemption since I wear glasses and have a weak sight and had 3 operations in my right leg.

Do you have any health problems that could affect your future employment? If yes, please specify:

no

Do you have any relatives in Unilever NAME? If yes, please give details:

no

Is there anything that has not been covered that you would like to mention? Are there any personal considerations that may be relevant to your application?

no
