Writing : Fluent

Work Experience

Please give details of any work you have undertaken, indicating whether full-time, part-time, vacation work or industrial training etc (most recent positions first).

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

I was a Research group member for two years, and I liked the idea of investigating an issue and try to read what researchers have already done in that field and try to contribute and propose new solutions.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices? (300 word limit imposed) *

It is a personal decision I made by my self. and after a lot of consultation with my friends, I decided it is going to be a great opportunity for me to test my skills in management in a summer period.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

When I first admitted in KFUPM, I came from Jeddah and I had no relatives in the eastern region who can help in continuing my admission process. But I had a couple of friends who were accepted before me. I contacted them and they offered to help. And during the first week I was able to have new friends and we still in touch until this moment.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result? (300 word limit imposed) *

Because I'm really interested in cars and how they function. I'm trying to learn how to maintain my car by my self. There are very useful channels on youtube which I have been watching and they really help and provide step by step lessons to fully understand how to diagnose and fix your car. After that, I have an old car which I don't use for transportation instead I apply what I learnt on that car and see the outcomes of my learning.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

N/A

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

After graduating from mechanical engineering I was totally lost with the many fields and positions that a mechanical engineer can fill. I started by eliminating all the choices that I'm not really interested in and I don't think I will be satisfied if I worked in that field. After that I made a list of all the companies that I'm really interested in joining them, and contacted them and hopefully I will receive a response at least from one of them.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

Do you have any health problems that could affect your future employment? If yes, please specify:
