Work Experience

Please give details of any work you have undertaken, indicating whether full-time, part-time, vacation work or industrial training etc (most recent positions first).

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

I'm interested in the civil work, i work in Activities and Publications committees in E-WEB, a scientific organisation in Faculty of engineering, and i was a delegate in Alexandria international model united nations (AIMUN) 2014.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

-I attended a session in 2012 in the faculty of engineering to one of unilever members unfortunately i don't remember his name or his position, he talked with us about how he changed his career from engineering to management and i decided to walk in his steps. -In the opening of AIMUN we had a session by Mr. Alaa hasaballah, media relations/campaigns manager, unilever mashreq. I was inspired by the workflow in unilever and decided to do my best to join this staff in the near future.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

a) I created a team to be the project managers of a project called "Engineering school", i chose them by their eagerness to work and i was sure that they have the criteria to achieve the task. b) i worked with them as one of the group, not just giving them orders and tasks then get the credits.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

I applied to the united nations model by chance, first i wanted just to improve my language but what i have learnt was more than this, i improved my communications, leadership, negotiations and many other skills.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

I participated in planning successful programs like Atlantis research track and many sessions and still work on other upcoming programs that's very useful to the students. there were obstacles of balancing between studying and participation in organizing those events but by time management i overcame those obstacles.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

I was in a team of 10 students that had to make a presentation about safety in petroleum companies, and the time of the presentation was reset to be the next day, i took the challenge to prepare the topic and make my first presentation and we got 10/10 in it.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.
