I used to train swimming since I was seven for about nine years before I got busy in my Secondary Education. I've always taken responsibility for trying to accomplish certain records and beat them again at every trial, and I've succeeded in winning a lot of medals.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices? (300 word limit imposed) \*

My brother works in Unilever, in Saudi Arabia unit. He had a great impact on my choice, because I've seen how he enjoyed working there and he advised me to go for it as it'd be a great experience that I'd learn a lot from. I've worked as a teacher at a kids nursery and I used to train fitness to young athletes, and I've trained at Unilever last year and it turned out to be what I've benefited from and enjoyed most.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) \*

I've previously worked as a volunteer with Rotaract, where we used to organize events, lectures and presentations. I also contributed in organizing a wedding for orphans, where we were responsible for collecting the money and reserving the place needed for the event to take place in the specified time.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result? (300 word limit imposed) \*

I was trying to develop my leadership qualities so I worked as a teacher at a Nursery for Kids where I taught them English and Math at Summer time. It was a good experience because I also got to learn more than I wanted, I learned how to be able to deal with kids and work under pressure and manage to keep my calm.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) \*

I used to train fitness to a young gymnastics team, about 6 girls, and I had to make them lose a certain amount of weight through certain cardio workouts that would increase their metabolism and decrease their muscles' soreness in a certain so they'd be able to be qualified for the Championship. And most of them succeeded and won the top places.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) \*

Every year since the secondary education and until now, I used to make a schedule for studying the subjects and make sure there's enough time for revising them and taking a break, so that I'd be able to perform well without any stress and also finish at the required time. And the outcome had turned well since I've started doing so, because I got to join the college I wanted as I've planned and I got the best scores since then.
