I choose UNILEVE as it is my first summer training and i want to have the experience and the challenge of working in a huge Organization like UNILEVER and try to learn as much as i can from this entity as i will try to give it as much as i can to become a productive person and to develop my own skills and i choose HR and accounting as i really want to have this new experience trying to link my academic life with the real work

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

At ENACTUS And COMET i first search for contacts in my network that is matching our criteria then i make a market research about it after that I make the phone call presenting my product and set a meeting and for sure if i have a problem with anything and i can't help with it i ask my head to help me or advice me we are all one team learning from each other and when it came to the meeting i present my product in details and try to focus on the positive things in my product and also mention any kind of problem in it if it is important

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

As i mentioned above i'm in my second year from my college so the first thing that i tried to develop is my communication skills and other skills so i challenge myself with new environment and put myself in a new situations and try to figure out my reaction and then improve it i tried to apply in many activities in my university like ENACTUS and COMET and others to know new people and get a new experience i didnt manage to get courses or any kind of official training but i think that in these activities i've learned alot of things that i didnt really expect
