Work Experience

Please give details of any work you have undertaken, indicating whether full-time, part-time, vacation work or industrial training etc (most recent positions first).

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

I've joined Interact since i was in school, at first my contribution was just a follower of a great teamleader that taught me various skills to be better in my leadership activities. Then joined the Rotaract Ramleh Heights club and ive done and participated in many projects, mostly i undertook the organising role in most of the events. Recently ive joined AIESEC for a year now and i was participating in the Outsourcing youth committee. And im also a drummer in a locally well-known band, besides composing music, being in a band got me a fine number of connections.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices? (300 word limit imposed) *

Since the first year of my college my target is to find a way to get into Unilever's path of career. Choosing Customer Marketing and Customer Development is because i find that one of the main reason of Unilever's success is having an efficacious marketing ideas and programs. I always enjoy meeting and interacting with an employee from the marketing department as i always seek to learn from.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

Last Summer i travelled America with three of my friends. i aimed to get to know the American market better although i had no specific previous experience. I felt it was a great opportunity to stretch myself and make a difference to my future. I firstly worked with a very busy shop and it was extremely difficult initially. My friends thought it was useless and they had enough from being just a work machine without learning. i started out making american friends and grew my connections to reach to a certain goal through my contacts. This also improved my interpersonal and communicational skills. I started influencing my friends by my motivational skills that i learned from past experiences. And finally after getting through and overcome many obstacles we reached our target before we leave.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result? (300 word limit imposed) *

Im always keen on travelling and meeting new cultures and having new connections abroad. last summer i chose to travel America and get to know the differences and their culture and learn from Americans. I started out with sharing an apartment with foreigners i dont know. Then i planned to work in a small shop to communicate more and learn the American market as much as i can, as a beginner though. This journey really taught me many interpersonal and communicational skills that definitely changed my life and way of thinking.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

Last Christmas, i participated to be an organizer for a large christmas event in Hilton with Rotaract. I applied to take a role of keeping the children in a well happy state and do some shows for them to enjoy their time. We began organizing as a team of leaders before the event for about the month. Every thing was going too well and we planned it efficiently well. But at the day of Christmas. We found out it was a mess. Everyone in my team was in a complete messy situations. I found out the reason for this is that they dont work a bundle of a team with one spirit. Everyone just thought about his role without thinking about other roles. I started to work with other roles to motivate them and to prove that is the reason for the mess, and successfully they all started working as a team and necessitated dealing with the situation as a group. So since then, i was the reason for accomplishing a very successful day and a new way of thinking in the team concerning any future events.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

I was born with a big family problems that caused complex situations since i was young. when i grew older. I began to interfere more and to know what is the main reason for this and tried to think out of the box and in another direction that my family is thinking from. I started to analyse the situation and i came up with an idea that needed a plan to be solved. This idea really worked and it overcome the complexity of the problem in a way my family was shocked about. The key of my plan was just thinking out of the box and having unique sufficient thoughts.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.
