Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

actually I interesting in adding something I wasn't know before .w whatever this in my field or not. I love swimming,dancing and travelling. also I love to meet new people that have a new mind sets to learn from them something during the conversation. I love to attend conferences that always pushing me up forward.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

my colleges,doctors, friends and family members. I'm always taking with most of them to gain new ideas or to help me to take a decision

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

my OC role .. I'm Currently working in it but at the beginning I has been selected to be the team leader for sales and PR and my team is 8 members I don't know them before.. my vice president gave me a task to accomplish it with the members. first I got their contacts and called them, I told them about a market research to do during the week and distributing the responsibilities with them in the mobile (actually we didn't met before) I sent them an Email and shared with them a sheet online to make it easy to communicate.. I founded my vice president make something not good by sending email for the members and me telling that the work is on hold and we will make another plan later.. actually their was a misunderstanding but we made it better and handled every thing after and accomplished the task

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

actually I learned that from two occasions: -first in the internship at Unilever the summer before .. I was not that interested but with dealing with the planing team I learned a lot and that changed a lot of things and give me the way of dealing with corporate. -second when attending an international conference in Istanbul (Anatolia Congress) I saw the real world their with some amazing and successful people. so I decided to be a successful guy. whatever I will face problems I will be.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

one of the opportunity my graduation project. actually the university forced the grad students to make mechanical projects and this not our core. so I decided with one of my colleagues to make an industrial project to be like a one year experience before graduation and to learn more. the doctors wasn't accept this project I went to the dean two times and I convinced her. actually I faced a lot of Obstacles like Organizing the team to work, found a factory, convince the doctor that we do something because he wasn't like our idea, have an output of applying something that we never know about it before and to get a grade in this project finally -- and know we are going through our journey to continue the project.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

now I have a 4 roles .. my college courses,my graduation project, my AIESEC role, another role in another team that called (Boosters) that boost the team forward by generating new ideas and providing education for the members and finally my OC role. to manage my time between these roles and success in all these roles its something need a lot of analyses. also to generate ideas for the grad project to have an output. to understand my role as a team leader for sales and PR and its the first time to make it. to learn new skills every day.
