Work Experience

Please give details of any work you have undertaken, indicating whether full-time, part-time, vacation work or industrial training etc (most recent positions first).

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

I am very interested in Sports so in my free time I jog around the AUB greenfield and I go to the gym daily. I was ranked first in Penabond among girls in the Sports Bac. I also give private lessons for school students. I was the Food safety leader in the AUB outdoors event 2013. I was elected the President of the Food Science Society. I love to travel and discover new cultures.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

Honestly I have few friends working in Unilever KSA and UAE and they are very very happy. Being in a prestigious multinational company is a big opportunity its like having an international passport. I applied to a business field and manufacturing since my BS is Food science and management where there's a mix between business courses and manufacturing.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

I had a summer internship at Arec in the bequaa valley. I was a whole new experience for me since I lived several weeks in a dorm without my family in a village. I had a task to supervise the employers work regarding food safety and cleanliness. The workers were males and they had a very difficult way of thinking; they cannot handle a female who's 20 to give them remarks. But one must have a great communication with people of all genders and type in order to let the idea be transmitted easily with no harm to anyone. A great communication was the key of achieving what I needed.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

I had a group project in my accounting course where all the members were males and they were engineering students. It was difficult at first to cop with them since they know each other unlike myself so I had to adapt to them and try to integrate myself in order to accomplish the work. The result was great they became my friends and we had group studies as well for the midterm and final.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

I was elected the President of the Food Science Society this year and it was a great experience. We made several events including bake sales. The bake sales were a success, in fact we contributed financially to the expenses of the Gala dinner. In addition we joined HORECA where students were exposed to different industries and companies and see a part of our major. At first no one really helped me organizing anything including the Society cabinet since we had a lot of exams but eventually everything went perfect with time management.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

I attended a workshop in order to understand and receive a HACCP certificate. One complex situation I faced is when I had to apply the HACCP plan to a catering company. First I had gather all the documents and the informations in order to apply this quality management system, this step was difficult and tiring since a huge number of documents were present. HACCP is a system applied to companies, catering and restaurants to make sure that the food served is safe. I followed all the 7 steps of HACCP and due to its success I passed an exam and received the certificate.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

Do you have any health problems that could affect your future employment? If yes, please specify:

No
