As i am still a student at the German university in Cairo, i am looking forward to major in the finance and marketing functions as i've always been good with numbers and analysis, and training in the finance department would be a great opportunity for me to get more familiar it. Also, i am interested in promotion, branding, selling, communications, creative design. and through training in the Marketing department i can have the opportunity to be creative.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

Although I feel my biggest achievements are still ahead of me, I am proud of my involvement with in a development project presentation in Egypt competition held at the German university in Cairo. I was the team leader so i had to always encourage other members for that project and we learned a lot in the process. We did it with hard work, concentration, and we awarded a certificate for outstanding performance.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

I participated in "Develop yourself series" sessions on the power of positive thinking and body language. This helped me to gain new skills and experience that can help me in the work environment.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

I was on a project team last semester in an organizational behavior course. We were supposed to make a video project for a real life situation in the work environment. The group brainstormed ideas for the video we were assigned to produce, and everyone but me was leaning toward an idea that would be easy. I suggested instead an idea that would be more difficult but would be something different that no other group would be doing. I used my communications skills to persuade the rest of the group to use my idea. During the project, we really put a lot of hard work into the project. All the team members ended up feeling very proud of the video, and they thanked me for the idea for which we earned an A+.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

During the last semester, i took a social marketing course and we were supposed to make a campaign for that project. We made a campaign called disconnect to connect which mainly aims to disconnect people from the use of technology through mobile phones, laptops and the like and become more connected with their social life without the use of such technological devices. The campaign was successful and my team for that project won a competition that was held between groups at the university.
