These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

As i love studying finance, Accounting and HR and achieving the highest grades in them, i will definitely choose two of the three to be my majors. i attend a lot of meetings with the Fundraising team at TEDxGUC and i had a sort of experience on how things are run in banks through my last year experience.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

last year on my first two days of the summer-internship in the bank i felt a complete stranger to the work environment but when i became closer to the people, things started to get better every day and many of them became my friends.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

i have applied for an Aiesec exchange program to be implemented by the end of summer in Hungary. This project is called Agents of Change. I started to attend ambassadorship sessions to develop myself on how to adapt on the new culture and how to benefit the most from this experience and it really made a difference to my life.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

-As part of AIESEC i exert my effort in NGOs visits and raising with them to match them with interns from outside Egypt. -As part of TEDx i am seeking now media sponsors for our grand event and planning a marketing campaign for awareness about TED and TEDxGUC within the university

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

i was applying as an engineering student in GUC and i got accepted but then i realized that this is not where i belong or what i want to work after thorough thinking and analysis of the situation. Taking the decision to convince my parents to switch from engineering to management was worth the try.
