Work Experience

Please give details of any work you have undertaken, indicating whether full-time, part-time, vacation work or industrial training etc (most recent positions first).

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

Public Relations member in SIFE AUC: Assisted in planning awareness campaigns for sustainable development projects. Marketing member in Developers inc.: Assisted in booth designs, planning awareness campaign of the importance of the national ID and attended two communication skills trainings by Dr. Phil Johnson. Logistics member at Resala AUC: assisted in planning charity campaigns. Logistics member in Developers inc.: assisted in organizing a concert. Academic representation member at AUC SU: raise awareness for students' and faculties' responsibilities and rights and advise students with their academic problems.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices? (300 word limit imposed) *

I have gone to many employment fairs where Unilever were there, and I always noticed that they are different and they work in an encouraging atmosphere different from any other company. If I got accepted in this internship, I would be able to test my choices as it would be my first work experience.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

a) I would be on good terms with everyone I work with/for, in order to establish a network of contacts including my teammates and people from other teams, because teamwork is a very important element in huge companies like Unilever. b) If I always listen to the opinions of the others and take them into consideration, I would be considered as a good teammate that everyone would be willing to help me.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result? (300 word limit imposed) *

When I was young I was always pessimistic and a negative thinker, this only led to bad things happen to me. Then someone recommended that I read the book "The Secret" and I did. The book talked about the power of one's thoughts and how thoughts attract similar thoughts. One day I decided I was going to change today and that I would control my thoughts to be only positive. It was never easy but I changed and my life after that changed to the better.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

In fact, in all the activities I worked in, I did not have the opportunity to do something critical that would make a difference in the activity.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

The decision to choose which section in Thanaweya Amma. There are three sections (math, science and arts). I liked math a lot but I didn't like physics, chemistry or biology. So I decided to choose arts section. I studied history, geology and ecology, psychology and sociology and finally economics and statistics. Due to this decision I got 95% in the final score. And then I got to university and I majored in Finance and minored in Economics, which have a lot of math, economics and statistics. As a result of my analysis and decision I am in a good academic standing in university.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

Do you have any health problems that could affect your future employment? If yes, please specify:
