Employer : I worked at the Library Sector and in Registry.I helped with the project of the "Content Management System".

Responsibilities : The Library of Alexandria

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

I had the chance to join the Rotary Youth Camp At Rc Freital in Germany from July 2008 to August 2008.It was a great experience for me as I got to meet international friends and know so many cultures.Also,I have been trained in Integrated Solution for Ports Company (ISFP) since 1/7/2013 to 31/8/2013 and in Industrial Modernization Center (IMC) from July 2010 to August 2010.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

Since I'll be graduating in february 2016,this is the first year for me to fit in unilever internship prerequisites and I am looking forward to reshape my career according to my experience and what I will learn during my summer training with unilever.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

When I was having my summer training in ISFP,I was supposed to help my supervisor to improve the business workflow of customs clarification.I went to the port logistics center and discussed the current workflow and its bottlenecks with the port and customs representatives.I documented the workflow and its deficiencies,and discussed how to improve it with different departments at ISFP (Research and development,business analysis,...etc) then integrated their opinions in one proposed(improved) workflow.My supervisor modified it and it was approved to be implemented in the new version of ISFP programs.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

During my training in the registry unit in Alexandria Bibliothque,I recognized that the trainees are not familiar enough with the financial rules that we should follow in our process so I took the initiative to ask the manager to move to the financial department as an observer for a week to learn more about the cycles and the financial rules they follow .When I returned back to the registry unit I transferred all the knowledge that I gained during this week to other trainees and so we avoided many mistakes that were done during the registry process.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

During my training in IMC,I was helping in the process of registration of the students in technical and vocational schools, this process is supposed to share their data in the labor market so they have the chance to be trained and to have a real experience according to the labor market needs.This project has helped both the students and the industry to match their needs and to improve the qualifications of the trainees by a great deal.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

During my work in improving the customs clarification cycle, I had to analyze every step in the workflow and to find out the reasons for the bottlenecks of this cycle.This cycle was very complex and there a lot of different entities sharing in this cycle for example: input and export authority,port authority,customs authority,...etc.I had to learn the role of each entity and how to enhance their interaction and data shared between them.After suggesting the new improved work cycle to my supervisor and modified by him,it was implemented in ISFP programs and this helped by a great deal to simplify the business process.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

Do you have any health problems that could affect your future employment? If yes, please specify:
