These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices? (300 word limit imposed) *

There is no specific person but I have chosen finance as first preference because I am really interested at this field and I feel like I have a lot to give for it.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

I used to work as a workshops manager in a cultural center located in El-Dahab Island which has an agricultural environment nature for a period of time. a) I established a network of contacts by communicating with people there and discussing with them about their interests and what they want us to offer to help them. b) my task was to organize workshops in different art fields, which was uncommon in this place and that makes it hard, and to have a deal with the trainers and bring the trainees from the citizens there. They accepted to attend and try this new thing because they trusted me and they knew that I really wanted to help them to improve their standard of living and so on.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result? (300 word limit imposed) *

After my first year in college I found out that academic education only won't help me to have a good career. So from the beginning of my second year I started participating in many student activities in order to gain experience to reduce the gap between academic studies and the real life. Since I started to do that till now I've been gaining a lot of experience in different fields.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

The student activity that I mentioned before (Zitiens), when I joined it. It was its first year in the university. I saw it's an opportunity to really make a difference because it was the first student activity in the University about the IT. The obstacles we faced were mainly because our manpower wasn't that huge and we needed more manpower to help us to promote our brand, we overcame that by using online promoting and social media in a wide range beside the offline promoting.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

During my participating in all of these extracurricular activities I believe I faced a lot of complex situations but I can't remember a certain one right now. All I remember is that we always should have plan B, C... and even Z.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

I'm a female.
