Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

- Member and volunteer in SAE AUCC (Society of automotive engineers Alexandria University Collegiate Chapter) from December 2011 to March 2013. - Member and volunteer at SMU organization From May 2012 till now (Vice Head Academic program now) . - Academic member at 2 projects (Mind utopia and El-tanweer EL-tarekhy)

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

No one

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

I sometimes use Skype in online meeting and achieving our tasks and asking for anything I did not understand .

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

After 2 years in collage when i realized that this education does not make me a responsible person so i decided to get into the volunteering work and i did not take a training i learned how to work by my self and by watching people, ask them and learn from them .

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

I eventually attended the mechanical department conference and I told the professors about my opinion in the teaching and the system in our department as it is bad and not efficient . the big obstacles that age difference between us and them and the routine but i will always try to change this system even if i graduate .

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

The situation is why people in volunteering work get low grads in collage . I tried everything to understand this by studying hard once with no work and working hard once with no study and working hard with studying hard , ... etc . the outcome was that the courses in our collage are too long and very big to do any thing else except studying but it is wrong when you spend your all time studying we have to work to be a responsible person in this age and we have to have a spare time to invest it in doing useful things like reading and searching and learning new things , doing all of these in the same time will not be efficient so to make one thing efficient you have to choose one depend on your goal in the end or you can choose all of them depend on your goal too .

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

Exempted (Female)
