Work Experience

Please give details of any work you have undertaken, indicating whether full-time, part-time, vacation work or industrial training etc (most recent positions first).

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

completed summer internship in rovira i virgili university spain. trained at Mercedes EGA for 1 month at the production line. trained at Bavarian automotive for 2 weeks at the production line as well. team member in chassis and body team in formula student 2015. team member in future eyes in developing and electric wheel chair.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

well, this is the first time i come across with Unilever but i am pretty excited to gain new experience.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

in my training in Spain, the training field was tuning automatic control devices in air-conditioning system. since this was my first time to be asked to perform a real application of my studies, i was excited to test myself, but also, i was shocked because we didn't even talk about real life applications in our academic education. so i contacted some friends in Egypt, i even contacted my instructors to guide me from where to begin my search. after they sent me some of online courses to go through, it turned out to be simple task and i was told that my work was grate and fruitful.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

last year, some friends and i made a design of a full belt conveyor mechanism and selection of parts as a little project for ourselves. this year i participated in formula student to compete on an international level last summer i attend language courses to work on my English and to learn Spanish.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

i had an accident a while ago, resulted in keeping me in bed for 6 month. so in one general meeting with my team mates in future eyes team, all of us were asked to give some ideas to develop. my idea was to develop a well functional electric wheel chair that is not over priced to help the disabled. my idea was choosing and is now being performed with a cost not over 1000 LE for an electric wheel chair that goes 2 m/s which in my opinion is great.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

when i was in charge of the belt conveyor project. we had too many variety of assumptions that needed to be made, not much time according to our time line that we had set for ourselves, and not much information about the system. so i split the team into two groups, one for the survey about the competing manufacturers, the other one for design approach. the survey team could find out most common types of belts were used. that narrowed down our selection menu. then more assumptions were made on the road, tested, and then redefined. having two groups really saved us a lot of time and helped us on the design approach.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered exempted above, please specify the reason you were exempted.

i am still undergraduate.

Do you have any health problems that could affect your future employment? If yes, please specify:

no

Do you have any relatives in Unilever NAME? If yes, please give details:

no
