Employer : Learn about the mechanics of the bulldozers of Caterpillar

Responsibilities : Mantrac (Caterpillar)

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

I recently enrolled in Enactus Alexandria University and we are working on developing new ideas that will help developing the society around us and provide people with better lives. The most important factors of the projects we work on is the sustainability of the project and also the impact it makes on people. My role was to develop a small project to help a man make living of it and to raise fund for the bigger project.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

I'm working on developing my leadership skills and communication skills and attended some events / workshop to improve those skills like project Demokratie by a youth initiative called Step-up and by being a part of this internship will not only help me boost my experience in my field of education (mechanical engineering) but also will help me develop these soft skills.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

Networking is about knowing yourself, your skills and what you want and in turn you know what you can offer others.. And to establish a network of contacts I should be doing my role in the job and by time I get to know more people and make a good connection with those people. I think building relationships is the key to influence people to help me, building alliances and persuading people is the key and that could be done by helping them with their tasks when I could so that they can help me back

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

When I started developing my soft skills and because I believe that to be successful in any job you don't only need academic knowledge but also the soft skills plays a great role. And by making this decision new doors like the civil work like Enactus had been opened in front of me and give me experience of how to deal with people and how to make a decision..

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

When I enrolled in project Demokratie I was facing the problem of being not able to talk in front of a group of people and by being a part of some workshop and by competing with others on how to convince people of your idea (one of the workshops) make me forget that fear of talking in front of others and improved my presentation skills.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

In Enactus as the team of last year had some problems we had to build up a new team and work on new ideas from scratch so we were running out of time as the national competition is in July, so we had to develop new sustainable projects as fast as we can, so I made a research and came up with an idea of making soup project and made a feasibility study about the project and make a presentation and it got approved and now I'm working with a team on implementing this project so that a man could make living out of it and that will help us on also in the competition.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

Postponed till I finish my education this year, And would be postponed another four years till my brother finish his college because my father is older than 60 years..
