Work Experience

Please give details of any work you have undertaken, indicating whether full-time, part-time, vacation work or industrial training etc (most recent positions first).

Dates From - To : 07/01/2013 - 08/31/2013

Employer : Production Engineer

Responsibilities : PEPSICO

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

I joined a business plan competition with a group of friends in 2012, in which we made it to the top 30 of 96 groups. I was a multimedia member of the women empowerment club at AUC where I helped design all the posters and flyers for the club.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

I believe that everything I did on my way from school to my graduation from university have shaped my decision into this. From being a mechanical engineer with passion to mechanical systems whether design or operation, to having a minor in business administration.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

I joined a P & G sales competition in which I was supposed to prepare a commercial plan for some products. As a mechanical engineer I was not familiar with such a task. First I asked a couple of my friends to join me as a group. Then together we started contacting people we know who would have a background on such a topic.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

As an Engineer, career opportunities are limited with the field work with minor roles in office tasks. However, I seek more than just field work. I decided that I would like to be a manager quickly. For that I minored in business administration in college, joined a business plan competition and joined the P & G commercial plan competition. All these are ways to introduce myself to the managerial positions.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

While having an internship at PEPSICO I was asked to come up with a project. I chose to take on the process of enhancing the production line. I started studying about workplace organization, 5S, and TPM. One of the obstacles I faced was helping the workers understand the importance of change and its benefits. After some time of collecting data and dealing with workers of different backgrounds, we achieved a plan and started on enhancing the production line and prepared a manual to be used as a guide in all PEPSICO facilities.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

The first thing that comes to mind when I read "understand a complex situation" is the P & G competition. First of all, I had no idea what a commercial plan is. Moreover, we had only 48 hours to understand and come up with the plan and prepare a presentation about our idea. After lots of time put into understating the case and learning about commercial plans, we were able to put a plan together finally and present, while many other groups failed to finish on time and did not present.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

Do you have any health problems that could affect your future employment? If yes, please specify:

Do you have any relatives in Unilever NAME? If yes, please give details:
