Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

During my school education I was a part of the scout. We used to travel to camps and have meetings in the HQ of the scout. I was also a team leader and responsible for teaching young children and train them. Also during the preparatory stage, I was responsible for collecting money and fundraising donations to the hospital of children cancer 57357. I was assigned to collect donations from all school levels. At university I was responsible for managing study groups consisting of my colleagues and me. I was responsible for contacting students and meet so we can study together and I used to tutor them in some subjects

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices? (300 word limit imposed) *

In my 5th semester we had a session held by an HR employee in one of the multinational companies in the field of consumer goods. The session was about the experience we would benefit of by working in a consumer goods company, it changed my decision as I tended to work for own business or a heavy industry company. However, my choice was to work for Consumer Goods Company Such As Unilever. Also the reputation of Unilever as one of the most popular and important English company was one of the reasons I was attracted to have a career in this company.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

I was part of a team in project of which we had to make a video project to describe the concept of organization behavior. However, we had some technical problems about how we can film this video while we all have no experience in the media sector. I started to contact some of my friends in the field of media and we started to have a mind storming sessions as team in order to write the story of the movie. We also contacted a director to give some tips about how to choose the locations and benefit from them. We started the movie as the university team only and by the help of some colleagues we made the required movie and was chosen among the best 15 videos in the university.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result? (300 word limit imposed) *

At the age of 16/17 I was 150 Kgs and I was to enroll in a new school for my secondary education. I found that being over weighted at this age will be an obstacle that I will face for many reasons. First, I was facing health problems due to my overweight "breathing and heart problems". Secondly, My look as an overweight caused me to have lack of self-confidence. So I made my decision and intended to lose weight. After 6 months I lost around 40 kg to reach 110 Kgs and by the age of 18/19 I was 98 Kg. However, I had some family issues and problems so I gained some weight to reach 130 Kgs again. But after those problems finished I didn't give up and started to reach my goal again

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

During my internship in Sphinx pastry I found that there was an opportunity to benefit from one of the concepts we learned in university which is rebirth. I made some studies with the help of some employees in sales department and made a plan to propose it to my manager. However, I had a problem as I was a trainee and as the concept of our culture that I am still young and lack of experience. So I worked on my plan to be effective and attractive by my manager so I made a presentation using Prezi and prepared a report and discussed this issue with the manager who accepted it by pleasure and discussed it by the top managers and I was informed that it was to be considered by the CEO to be implemented

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

I was once a team leader in university project; we made a commercial for a social marketing campaign that we planned. Our TA send us a mail that said that we used a video that was shown in other class and that was illegal and we will have our marks deducted. I made a plan that I have to take my rights for what I have done and the work I made. My plan was to prove that this work is totally mine, so I took screen shots of the programs I used to make this commercial, I also send her how we made it and the time of the mail I sent the video to my team members. I also asked her to meet me with the other group that used it. The results was that she confessed that they used it without our permission and we had our rights back

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

To be asked for military service in 2015
