These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

من

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

ش

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

ش

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

When I find a good chance to change I participate , foe example I'm in many teams in college the main aim is to develop the society and make change the most obstacles are political , if we trying to spread awareness we considers as we are against the government , If we are talking about personal rights they will not give us permission to work . I got the chance to work in small scale of field the not spread ed in Egypt in Robotics , No financial support , no Moral support , no lab , We can't get the Belongings required from outside Egypt because of Customs 'the don't allow us to get it '. Although still working by our-self making courses , sessions ..etc .

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

As I'm a part of Mechanical team in student robotics organisation , we face urgent problem every time . while testing our robot in matches we face urgent problem and we must solve it immediately , once in training match we found problem in our gripper it doesn't work probably , then we must design a new one immediately and apply it in the next training and we did it . the last day before the Regional finales in Egypt we found problem with the robot dimensions it was out of dimensions . it was a disappointed situation we will not qualify to play the match , we don't have time and few hours to travel to the match we didn't surround and made it well. and we qualified to represent Egypt in India . in Jan'14 ,the international competition and our exams time also. we have to choose between our study for exams and attend them and work for the international finals . the most complex situation ever . we have to choose between our dream and study . we didn't stop we got permission from the university and college and student to make a 7 days gap in exams time table . we were sitting in college the hole day studying and working I traveled to India and played the finals and my GPA in first term was 3
