## Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) \*

1.project leader in Enactus Alexandria team 2.member in sona3 l 7ayah 3.participated in the Quest competition and reached semifinals in the Egypt Country Talent Championship awarded on 8/12/2013 4.at school i was a member of my school choir and travelled a lot of countries ( Germany , Italy .. )and member of basketball team and member of social services of my school (DSBalex)

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) \*

As i was a member in The Quest Noha show ed us a video in the Experience Unilever day on 7/11/2013 about William Lever. I was totally impressed of how lever rose from humble roots to become one of the greatest industrialists of the age with his revolutionary idea and instead of selling to shops in bulk, he would cut up his soap into smaller pieces, package it, create a brand that was ready for consumers to use. His idea of creating a mass produced product that made cleanliness and hygiene affordable for everyone turned merchandising on its head and transformed the lives of the poverty stricken lower classes, and how he realized that a successful business needed solid foundations if it was to win long term and how he had a social conscience that was in many ways far ahead of its time. Thus, he made people secure in their jobs which increases productivity and used this wealth to help his employees.It is these ethics and sense of social responsibility that are ingrained in Unilever's success to this day and because of this my dream is to work in this community in which i can create and do my best. Thus, William lever is my ideal and now adays am trying to apply his idea with my enactus team so we are making environmental soaps.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) \*

Now adays am a leader in enactus alex which is a non profit organization and we are trying to help people. I came with a new project idea of producing environmental friendly, healthy and cheap products like soaps which we can make at home and teaching people how to do this to help them in their life. I presented the idea in front of many people from different faculties and among many projects my project was accepted. Now I am the leader of my project and i have a team of 5 people. I am trying to create a friendly and working environment among my team ,each one has a specific task to do and we are now preparing ourself for the final competition among many universities in which we are going to present a very good work and maybe win.

**3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) \***

Once a time as i was in grade 8 in my school we had an assignment in the english lesson to prepare something to present. It was my first time to do a whole presentation with powerpoint alone and i couldn't know how to deal with powerpoint. I asked my cousin how to deal with powerpoint and i learned it by myself and i have done the presentation and i remember that my english teacher was very pleasant of my work and it was one of the best presentations at all.

**4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) \***

As i was a member in the Quest 2013 we were divided into teams that don't know each other. We were 5 people in magnum team and had the task to do the strategy plan of a deodorant from 2014 to 2016. Each one of the team had a certain task and i had the task to act like chief of human resources. Although it was not my field which i am studying right now but i was like a challenge for me i asked many specialized people in that field, read books about it and searched in the internet and came with very new and creative ideas. As i presented my ideas in the final presentation i was told that i was one of the best people who talked about HR in that way.

**5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) \***

As i was in my last year at school, i had the opportunity to apply for DAAD scholarship as i was from the 7 best students in my class. As i was in the interview i was asked about how to deal with a complex situation for example as i study alone in germany and i don't understand many things in a specific subject, i said i should try to begin with the easiest then step by step try to understand the difficulties and trying to solve them. Another complex situation as i was in summer 2009 after school i had a training in Bibliotheca alexandrina. There was a fund raising problem. First i defined the problem clearly and suggest all the possible solutions and finally we came to the one which best fits our situation and the problem was solved.

#### General

**Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.**

I have no military service requirements

**Do you have any health problems that could affect your future employment? If yes, please specify:**
