. I was a part of Aisec guc, department finance. . i am a part of the egyptian national team of speedball since 2008. . I won the world-championship in speed ball in 2008 in france/ in 2009 in Egypt/ in 2010 in japan. . I won the world-championship of clubs in 2011 in france. . I am a member in the speedball team in shooting club. . i am a speedball coach in shooting club. . i love to travel, i went to(france/japan/England/turkey/sudan) . I have a private center for the materials of the guc with 2 other partners and i am responsible for the financial part.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

I believed since the first semester in university that training in many companies and places will gain me the experience and the trend of working. I believe that nobody will start big, every manager i met or worked under assured me this. Unilever is a multinational and respectful company that anyone will be seeking to work or train in. I have chosen the finance major as i know that finance is the backbone of all the companies. I intended to take even a small advice from any manager i met, as i believed that there is a clue in success that will be common between all of them.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

When i first joined kidzania i was responsible for the public relations and customer service, i needed to know each one that work in this place, from the biggest manager till the smallest employe, i needed to know their name, their position, what they do & how they do it, what is their authority to know if they are exceeding their authority and break the rules or not. . when i joined aisee guc, i was part of the finance team, aisee mainly depends on the team work, so the trick here is how to influence each one to make them participate and achieve the task. It was a matter of mind catching, how to catch each one's mind to make him do the task.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

When i first join the national team of speedball, i was just only 16 years old. I was the youngest player in the national team. I needed to learn everything from them, take from each one his experience. Know the techniques. So i decided just to ask and listen everyone of them, till i reach my own technique in playing. when we were in the training camp, i used to sit with each one separately and ask them in everything even their personal life. In this year i won the world championship in france and i was the youngest player to win such a championship

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

I am coach of speedball in shooting club, i am coach of the young players. I saw in each one of them myself when i was small, how i wanted to learn, how i wanted to know everything, how i looked to the old players as if they are heroes. I just decided to give them everything that i didn't have. Because when i started speedball we didn't have champions in our team, i used to wait till i meet the champions in the championships and ask them and watch them. So i decided to teach these young players everything i ever wanted.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

When we first opened the private center, as any private business we don't expect large revenue in the beginning. after the second month we had the complex situation of whether to resume the project or close it. Since i was responsible for the financial part for the center i had to analyze every detail to be able to take the right decision for continuing or closing.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

I am still undergraduate, but i don't have any brothers
