I was the treasurer of our residential tower owners association in 2011/2012 I helped in solving many services' problems also I settled many disputes. I volunteered at Rakkez club at my university in 2010/2013, we helped students with their study, we held many conferences in different topics I helped in leading this club in 2013. I am interested in reading and social work I have played many sports such as Karate, swimming and football I am interested in watching scientific and engineering documentaries.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life**1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) ***

I have attended many conferences and lectures that encouraged me to improve myself and that can come true through joining such great companies like Unilever. I heard about Unilever summer internship at a mechanical conference that was held in our department, also from a colleague as well as Face book. I am very excited to work as a mechanical engineer in company that utilize latest equipment and machines I am looking forward to be the executive manager of the engineering and manufacturing department at this company

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

working as a sales man was a great new activity in my life, sometimes I was responsible for the whole store alone a) I made new friends, those people who were working in the neighborhood we helped each other in sales, managing our shops as well as creating accounts b) I persuade people to help me by helping them with their tasks and simplifying things in order not to annoy any body or waste his time.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

I decided to develop myself in mechanical engineering to cope with the requirements of great companies and also to become a top engineer in my field. I joined many academic and technical courses as well as self learning with the aid of videos and open courses. the results were great; ----- I have finished many courses 1-Primavera project management software at the Arab academy for science, technology and marine transport. 2-German course 3 levels at military institute for languages 3-English conversation level no. 4 at military institute for languages 4-Mechanical engineering conference at faculty of engineering in 1/2014 5-occupation safety and health administration (OSHA)at engineering syndicate in 2/2014 6-Matlab technical programming at Jelecom in 9/2013 7-Solid work design software at Jelecom in 7/2013 8-Industrial PLC basic application at Jelecom in 6/2013

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

I saw the opportunity to make a difference for the future of my residential tower. There was many disputes between the owners I helped in overcoming this critical situation, I converged the views, also I made some tasks to improve the situation of services so they decided that I would become a treasurer for the owners association, this lasted for about 18 months. the situation now is much better no disputes with much better services.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

I am now the leader of our graduation project. We help each other understand a new topic which is manual and automatic fire fighting systems this subject was totally new for us we have to depend on our selves to understand and design these systems in mechanical department building we read many papers about the topic we have to distribute the work among us with a scheduled plans to understand the matter through reading, courses and open sources. we have to make the design manually ,automatic and with the aid of soft wares. we made a great achievements in a relatively short time that encouraged us to start design an air conditioning system for the same building. we are now going on with good steps.
