Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

My non-academic interests is playing music, reading, drawing and playing football. I was a head of two teams one of them was for the music competitions and the other was for drawing ones. Participating too in social works, like beautifying the city, our college and campaign of foods and supplies for poor people with my friends of RESALA.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

Through working in various places, like being waiter in a big wedding hall and in a hotel too, production worker to in a worldwide company and pharmacist assistant in addition to my study in college, this made me more experienced with life difficulties, made me know how to treat with people with various cultures and traditions, built in my soul an extrovert character that are flexible enough to do any thing.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

The new environment was the pharmacy and my task is to be a good pharmacist assistant, I have used different ways to be good at memorizing the medicine and active ingredient too. I asked the pharmacist to teach me how to describe medicine for people who are suffering from such a normal disease like cold, flu etc... and now, I'm fluent in it.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

The occasion is when one of my friends travel to America, and become so arrogant because he is in America and, I'm here in Egypt, and because too that he knew how to speak English well. From this point the challenge was started so, I decided to develop my English as hard as I can, reading, writing, speaking. Once he came to Egypt, I found that we are at the same level of English. From this point to I started to develop my skills too, and I learned about Photoshop and some about web-design and programming. Finally, I recognized that I have to develop from myself not just only to take my revenge from this arrogant but, is to be a good in life and get a good career in the future.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

This time was in a dream while I'm sleeping. I dreamed that I was in responsible for a specific aspect of the government, I have build an infrastructure for all field of the state " EGYPT " through using the resources which has been neglected as it's not existed but, it actually has a physical existence like : deserts, Sinai and the all empty area in Egypt that not used. I dreamed too, that the inflation rate has been decreased and the curve of M.C has become more elastic not inelastic any more. Suddenly, I wake up from sleeping, but during thinking about this dream, I find that it can be applied in the normal life, and I will do it, when I work and get the money that will be enough to achieve this dream.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

Now, I'm in the faculty of commerce, Alex University, English department, at the second year, and as you know that our specialization will start at the third year and I still didn't know much about the all majors of our college like MIS, Business, Accounting, Statistics etc... So now I'm searching and trying to know more
