Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

I am interested in Like Student's Rights I have been in an exchange program twice between Alex Uni and 3 diff German Universities in Germany concerned with the student representation and the student's rights. I was involved in the civil work within the College and even outside it, I have been an organizer, a Public relation member, Head PR committee, PM for a 3 months Project and finally vice president of SMU NPO in my Faculty. I was the best female participant in AIMUN'12 Model of UN. I was a member in the Academic Committee in MEU'13 Model of European Union. I was the host for a no. of events like the graduation of the Faculty Engineering for class 2012, Hosting the opening ceremony of MEU'13 in the great hall in Bibliotheca Alexandrina.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

Being a Project Manager really shaped my decisions a lot, starting from writing a formal proposal, presenting it to the members, reciting the project's board members, recruiting the staff, enhancing the skills of the staff, calling for participants, passing through the input process and the output process of the project and finally my speech in the closing ceremony saying Steve Jobs quote "stay foolish, stay hungry". :)

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

I faced this a lot in Germany when we worked on focus groups to solve some problems, I was the only Egyptian, I should get out of solutions to that specific problem, so I just start to moderate the meeting in an acceptable good way, about b point, I already Love socializing so I have got a lot of friends in different disciplines, and as long as you are helping people, no one will be late for helping you.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

Maybe applying for the interview of hosting the graduation of the faculty of Engineering, simply because I thought that I will enjoy doing this and it was true, I started to keep on rehearsing, recording videos and sound track for myself, watching videos for hostess, and the result was really perfect L7MDL.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

Maybe the opportunity was managing the project that I have mentioned because it was really differently oriented, and people don't usually fine with change, but we -the board members- were able to encourage people to accept the new things to accept the new ideologies and methods, to accept change.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

Engineering students spend their life time analyzing cases and make decisions and doing some actions to fix cases and situations, it's our life, our career !
