These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

The application was proposed by a colleague on a facebook group, and we once approached Unilever as a sponsor in Enactus CU, so working in a summer internship in Unilever would give me experience to complete my work in the management career and I hope in Unilever. My chosen function was chosen upon my academic courses that allow me to the basics of Finance and accounting and I've chosen the HR as a second choice as it is a widely known field and almost every fresh graduate or undergraduate gets experience from this field of work.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

Last year I was new to the presentation team in the Org. I work for, all of the members were very good in the work, but I managed through commitment, creativity, hard work to get to their level of presentation I also used the experience of a girl in the team to add some touches to my presentation, I managed to get chosen for the 12 members who will be presenting the Org. in front of many CEOs and foreigners in the National Competition that was held in the InterContinental City Stars last year,

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

It might seem a little bit different, but I used to take singing and music courses in "Sayed Darw eash" Musical Hall. I did this because of my passion toward singing, I have developed very fast and completed my course in two months, I felt after taking these courses that I'm a new much more interacting person and I've taken this for granted in my work as a fundraiser and a presenter as I used to talk with CEOs from different categories and levels.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

Being in the presentation team of an organization when they wanted manpower, they were all working from the beginning of the year I came along in the last three months before we were to enter a competition with other teams, I managed through commitment, hard work and time management to be a fluent presenter and to document all the work of the org.'s projects, the thing is that I worked with different and new people that were friends before I came, I had no idea at first about presentation and documenting as a result I was selected from the few who got to the finale of presentation team in the competition.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

Through my FundRaising work, we used to go through critical times where we need money to complete a certain project, with my team I had to initiate an idea for an event, know the needed logistics, put the financial plan, get a venue and getting sponsors, preparing for a workshop, the outcome was satisfying financially.
