_volunteer @ Future Protectors Association since I was at school. _Founder at SMU (Start Menu Union) is a non-profit organization, founded by a group of students at Faculty of Engineering, Alexandria University, Egypt, in the academic year 2011-2012. _Member of Culture and awareness Committee then head of the committee. (2011-2013) _founder at "colors" Cultural Salon. (2011) _Management team of project Simulation of Student Union (2011) _Management team of Blood Donation Campaign (2013) _Vice project manager of "Historical Enlightenment", Specialized research project in history. (2012:2014) _HR member at human resources Committee (2014)

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

My relationship with The Company began when I was in Preparatory year at College, a friend of mine was in the summer training and then I heard about Unilever... "The Quest by Unilever", first time I met unilever in the Experience Unilever day. We met the staff in the company and the workers there I was influenced by the extent of their passion and their love for the place and more influenced by their belief in the vision of the company and their union in order to achieve it. I have learned what words like (Sustainability , supply chain , Marketing

and social responsibility) mean. _participating in "the Egypt Country Talent Championship" was a very special event for me... We met directors in the company and I was influenced by them and picked up some precious advice from the discussions that took place that day, both with directors or participants. That was a useful and enjoyable experience and encouraged me to read more in the field and ask what I should do to reduce the gap between the college and the job market.. And I really wish if I can have such an experience again and again.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

In the Egypt Country Talent Championship we were groups, I was supposed to be working with a group I do not know within a very short time, we began to recognize each other and to know the strengths and weaknesses of each person, we helped each other understanding the problem and we began to distribute the roles we had, we started in the search online for what we need, then we had meetings where everyone was explaining what they found out, we asked for help from people who had some useful information that we need, within every meeting we had the knowledge about each become consolidated and that helped us to accomplish the desired task and not only that but each person effects and influenced by the rest of the team and we supported each other in some tough times, especially on the presentation, even though we were not the winning team, but we were happy to work together and somehow we were definitely winners.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

_ Now we are working on Initiative in order to reduce the gap between the study in college and what it takes to the job market and to improve the educational process within the college. We collected a team that believe in the idea and we still in the stage of implementation. Risk being a project manager, even if it is in volunteering work but it gave me the opportunity to discover myself and achieve my goals and learn a lot of time, effort and work management in a team and I think it was a successful experience.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

In SMU our aim is to provide a better future concerning the revival of our society we are looking for spreading scientific, social, cultural positive ideas that call for working together, I believe in that work and consider it as the opportunity to really make a difference in the society...Of course there are a lot of obstacles in that work such as the routine work, we faced problems in the response of the people, we are supposed to make people more positive and that is very difficult, people do not respond to the changing in culture of the community or elevating it out of fear of change, most of the students interested in their studies so careless any other aspect of social responsibility, in Somehow or another, we were able to overcome these obstacles time after the other and we made a change at the level of the university community in the activities of project own research in history, many of the students corrected false information and have learned how to look for information and how to judge the events. In the blood donation campaign.. Many of the students have changed the culture of donation and became believers their duty towards this case and the need to interact with the community in a positive way

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

_In the "Enlightenment historical" project as I was a vice project manager, I was supposed to take decisions concerned with the process of the project's progress, but we had hard times because of the security conditions of the country in the recent period, and that was our duty to provide places for lectures and ensure the safety of participants and the continuation of the project with motivating people constantly and mitigation of pressure on the project team. _ In the Egypt Country Talent Championship we had a case that we do not know much about and the situation was complicated, many of the terms we did not realize and did not understand the meaning of them, the time was short and working with new team where I don't know them, so I had to analyze the situation very well and try adjusting with them, to read and grasp these terms as soon as possible, we did not give up or feel upset, but we did our best together, and the result was good, I learned a lot and we made a good thing

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

Do you have any health problems that could affect your future employment? If yes, please specify:

I Don't
