Work Experience

Please give details of any work you have undertaken, indicating whether full-time, part-time, vacation work or industrial training etc (most recent positions first).

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

- Multimedia & IT Head in enactus cairo university (2013-2014) enactus is a non profit organization that makes entrepreneurial projects which have an effect socially, environmentally and economically. -ACES IT team leader, aceseegypt.com, ACES is the annual conference for engineering students in Ain Shams University, it's main aim is to fill the gap between the academic and working life. -Marketing intelligence workshop in SCOPS Ain shams university -Fekrety training in fundamental entrepreneurial concepts for startup ventures. -El Ezaby summer training as sales assistant.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

I used to attend many events that talk about entrepreneurship and passion. I was mostly inspired by Mohamed Tohami's talk about finding the passion needed for life, and I participated in his test for finding my passion, It helped me continuing to learn more about computers and stuff. I'm a third year pharmacy student, leading in two positions in two main student activities in Cairo and Ain shams university, I was inspired by Amr Ashraf -Co-founder of Engezni and TEDxAUC-as he participated in many things earlier, I wanted to gain the experience and

manage the time perfectly.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

I was planning for a startup to apply for a competition, I used help of many friends in leading positions in student activities to write the business model.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

I applied for ACES IT head with zero knowledge about coding but only passion. I had a team of 5 members, I was learning coding languages before them in condensed way then teach them. the result is www.acesegypt.com

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

-ACES is a student activity in Ain Shams, most of activities in Ain Shams university depend on having a website for them, ACES was known for the well developed registration systems but they didn't give a priority for the design of the website, I believed in better UI/UX can help in marketing ACES and having a better image on campus. So I worked hard on the UI/UX and we finally came up with beautiful design which got around 6000 hits in 40 days. www.acesegypt.com

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

-complex situation: leading a team of 5 members who know basics of coding, however, i don't have enough knowledge and maybe less than them. -Plan: dividing our working period into design phase and development phase -They focused first on design (which i'm pretty good in) as my main concern for the year was to focus on the UI/UX. -self-learning about development before starting the development phase with the members.
