These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices? (300 word limit imposed) *

N/A

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

In the last case study I have joined. I was working with new team. Most of them from ASU. I recommend to two of my team (Sales) to go to Formula Automache to help them in the survey. I joined them in the survey. Later we become friends.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result? (300 word limit imposed) *

In one of my semester project. It was important to me to learn CAD program. I have no time to join class or hire private tutor. I learnt it by online tutorials.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

In mini case study. I was working with small members they had no idea about word or prezi. We had a lot of work to do. I encourage them to learn and participate in the project. We all then passed to the final case study

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

In my graduation project. We faced a problem in the engine selection. We brainstormed to make a criteria for selection. It was a good decision finally.
