Work Experience

Please give details of any work you have undertaken, indicating whether full-time, part-time, vacation work or industrial training etc (most recent positions first).**Dates From - To :** 01/06/2014 - 01/30/2014**Employer :** Quality control department: including quality reception which worked with the quality of the incoming supplies both electric and mechanical, dealt with technicians on the in control quality section to see how everything was done and to check whether the in process control was being followed by the workers, and worked on templates that the technicians used that required that I understand all the filing systems and procedures of the quality department.**Responsibilities :** Schneider Electric

Interests Activities

We are interested in what you do / have done outside your academic work.**Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) ***

I like playing the piano since I was first introduced to an electronic piano(keyboard) when I was 10 at school. I do still practice on my digital piano at home now. I like very much working out and trying new work out programs that are more efficient than more ordinary ways of working out such as going to the gym. When I was young(10-12 years old) I liked role playing having work and my parents supported me by buying for me things that helped me do that such as electronic kits where I could assemble electronic components on boards that did different functions such as detect movement and also bought for me a microscope when I was interested in biology or becoming a Doctor.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life**1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) ***

I have a group of friends from my own department at university who are doing their thesis project at Unilever and they spoke of how professional and impressive the factory is.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

When I was an intern at Schneider Electric my employer/mentor asked me at the very beginning whether I preferred to get in contact with a lot of the technicians in the factory or just with engineers and when I said everyone he gave me assignments that involved me going around the factory asking different people in sectors and departments to teach me about things to complete my assignment. Asking the technicians to help me meant that they would have to stop their own work for a while to help and I had to move from one person to another to get to the information I needed.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

During my freshmen year at college I took a course in computer science which taught mainly programming of the C++ language and I enjoyed it so much that after the semester was over I kept going through the book after the point where the course at ended and kept learning more of the C++ language. I also learned a lot through the internet and started challenging myself by developing programs that were a little harder than my level during my freshmen course such as a computer player of the game tic tac toe that never loses but can win or tie.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

I chose the topic of our thesis project. I believed that the trend of science is heading towards renewable resources since our resources are getting closer and closer to running out. So I wanted to our group to pick something that made a difference to the future or contributed to the research of finding solutions to using renewable resources in power production and I picked the topic of Organic Rankine Cycle which uses renewable energy such as solar energy to produce electricity.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

At my former employer's, Schneider Electric, I needed to get information and understand about the filing system and procedures of the whole quality department and sometimes other departments to alter the template used for supplier notifications. When I was interning there, there had been a lot of complaints from the suppliers about the unclear notification templates they received and I was required to improve it. In order to know what necessary information the suppliers need answered and questions that need to be answered by the suppliers I needed to go around the departments without knowing exactly who has the information I need and ask. I was referred from one person to another dealing with people for the first time and most had no idea who I was at first. I kept going around technicians, workers, engineers and some employers to finally get the information I need to add everything I need to the template before showing it to my employer/mentor.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.**Do you have any health problems that could affect your future employment? If yes, please specify:****Do you have any relatives in Unilever NAME? If yes, please give details:****Is there anything that has not been covered that you would like to mention? Are there any personal considerations that may be relevant to your application?**

Have you applied to Unilever before? If yes, what did you apply for:

Have you attended a Summer Internship in Unilever before? If yes, please provide details:

Year :

Line Manager Name :

Have you attended/participated in any event/activation held by Unilever in the last year (e.g. Lecture, workshop, competition)? If yes, please provide details

Event Name/Type : Winter Internship

Date: (MM/YY) : 01/14

Event Name/Type : Winter Internship Competition

Date: (MM/YY) : 01/14

Have you attended/participated in any activity held by other companies in the last year (e.g. internship, competition, workshop etc)? If yes, please specify

Company Name : Schneider Electric

Event Name/Type : Winter Internship

Date: (MM/YY) : 01/14

Company Name : Schneider Electric

Event Name/Type : Winter Internship Competition

Date: (MM/YY) : 01/14
