These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

Unilever is a very well-known corporation that is famous with its high efficiency and good reputation. Last year, during the employment fair at AUC, I had the chance to explore the opportunities of Unilever, and talk to one of its representatives that gave me the enough background about the jobs and internships. That made me passionate about applying for an internship, as I have been waiting for Unilever to initiate its summer program since then.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

Last year, I applied as a head for Squad committee in FYE program at AUC, however I was accepted as a head for entertainment committee. This committee was new to me, I knew nothing about it and it was not my field of experience, however The FYE office believed in my abilities that I would add to this committee. And actually I started adapting to this new environment, made some research, learned about it and used assistance from my friends who were in this same position previously, I achieved tasks efficiently, using the aid of my members. I spread an outstanding spirit within the members so they could accomplish the tasks through a loving way, and as well my network of contacts helped me go through this smoothly.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

I was hired last year as an assistant Manager, at the office of student development at AUC, I took this position as a challenge in order to prove to myself that I can manage working under crisis and short notices efficiently. I developed my communication skills, my public speaking skills, and my leadership skills as well. I learned a lot about the administrative field, how to lead groups of people, and how to organize tasks and monitor the employees working with me.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

I work currently as a vice president for the FYE program at AUC. Last year during the program I noticed several flaws and negative mistakes that I decided to reapply again this year in order to correct them and assure the efficiency of the program. I re-applied, got accepted and now I am working with the rest of my crew in order to study last year's mistakes and set out a clear agenda for improving them using our previous experience. The outcome so far is fascinating.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

During my work in FYE program at AUC, I had to spend long times studying the mistakes that the previous entertainment head had caused during the program in order for me to correct and avoid them. I used my analytical skills in order to point out the flaws and negatives in his work, and with the help of my members, I was able to set out a new agenda in order to start new initiative criteria in terms of entertainment to the program, and it was successful.
