Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

• Working to afford internships for college students and graduates from all over the world in EGYPT. • Team leader in AIESEC international organization • Member of Rotaract Alexandria • Participated in organizing the vocational service seminar in Port Said, EGYPT, 2010. • Ranking 3rd in Alexandria and 3rd in Egypt for karate. • Organized EL-GOUNA international squash championship for two consecutive years. • Head of public relations in the United Nations environmental project "let's take care of the planet".

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

i have always wanted to take advantage of real life experiences to pursue my career in engineering my older friends who took the opportunity of summer internship in Unilever told me how great was it, which made me eager to apply for one, participating in the QUEST by Unilever allowed me to know basically how things are going inside that fabulous company. by combining my friends words and my QUEST experience, eagerness at the top to take the internship

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

actually that was very recent when i passed the application process in p&g and had to prepare for a reasoning test so i established a network of friends and people who did such an exam before. so we talked about it and received some help in preparing for the test, but the most influencing person was a close friend of mine who has been enrolled in unilever's FLP program before and accepted in Halliburton oil company. he informed me about how important it is to have a summer internship as he had a lot before and helped me practice through the preparation for the reasoning test.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

it all started when i decided to work, and by work i mean somethings that is not related to my career, i worked as cashier in a convenience store in new jersey 2010, and in a fried chicken restaurant 2011, gas station 2011, pizza place 2012, candy store 2012, i wanted to do this because i felt something is missing in my life i wanted to explore more stuff in the world, more occasions where different people make living out of, the result was endless amount of experience in so many different ways including self confidence, presentation skills, body language, open mindedness, and the most important one is work life which means punctuation, responsibility, and present-ability.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

the time is since several months ago and still continuing in action. i saw the opportunity to make a better future in aiesec alexandria interview process which therefore will raise the quality of the organization. as an oldie in aiesec alexandria i started giving sessions and leading people towards a better interview process obstacles were people opposing the action or people who don't want to learn but i gladly overcame such obstacles at the moment quality is raised a little bit but not to the level i want so i am currently still working on such an action

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

okay last summer, when i was working in VERIZON WIRELESS, there was a device called the mobile broadband, in order to receive commission without deductions one has to sell a numerous amount of this device. it was very hard to sell such device because it's a hotspot and such service had become available in most of the smart phones recently so i analysed the situation and understood how important it is to sell such a device for my own good. so i put a simple sticky note that says "you have to sell mbb" as a reminder how important it is to tell every single customer about it. in the end results were great numbers are doubled and became much much better than before.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.
