Work Experience

Please give details of any work you have undertaken, indicating whether full-time, part-time, vacation work or industrial training etc (most recent positions first).

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

Unfortunately in the past i didn't believe in non academic activities but later i realized it's importance and i'm willing to experience any activity whenever the chance is available.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

Through my academic years i have intended several events where the students meet the experts from different corporations to talk about their experience and there is always a representative from "Unilever" and i found them the most loyal to their company and even when i participate in "The Quest" through the seminars i loved the work environment in "Unilever".

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

I will introduce my self to the contacts available, tell them about the task that we have to achieve, give everyone the chance to share their ideas concerning the task till we reach to the result needed I can influence people by giving the chance to everyone to express their ideas and encourage them to bring out more ideas by group thinking as we are all leaders of the same group.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

This year i took the initiative to learn about the economic crisis that happened in 2008. I did this because i know that there's a crisis happened and we still suffer from it but i never understood why. So i used the internet to learn about it and read more, then i found a documentary that explains the problem so i watched it I finally know what really happened and it's cause so that's a satisfactory result.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

The best opportunity i took to make a difference is must be the "25th January revolution" for the future of our country, as i protested against the ruled regime, the biggest obstacle is the police forces with the bombardment of tear gases whenever the chance is available which is hard to take, the result that we were able to remove the ruled regime. We may still face obstacles till now but we are sure that a brighter future will come one day.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

When i finished my high school, my degree was accepted by the "Faculty of Engineering" in the "University of Elmenia" so i have the choice either to go there or switch to "Faculty of Commerce" in the "University of Alexandria", so i took the decision to join the "Faculty of Commerce" but i have to work hard to get high grades to be better than other students and thank God i am in my third year now and the last 2 years my grade was "Very good".
