Personal Details

First Name : Yasmin**Last Name** : Sudan**Nationality** : egyptian**Second Nationality (optional)** :**Age Range** : 20-23**Gender** : Female

Address

Primary Address

Address Line 1 : Building 4, Abd el Wahab Sleem Street, El Zerai Road**Town / City:** * : Maadi, Cairo**Country** : Egypt**Email Address** : yasminsudan@aucegypt.edu**Unavailable interview dates** : 04/28/2014

Career Choice

Business unit : Mashreq**Function choice** : Engineering & Manufacturing**Second Function Choice** : Communications

Further Education

University : American University in Cairo**Faculty** : Engineering**Major / Department** : Electronics Engineering**Graduation Year** : 2015**Degree/GPA** : 3.82

Secondary Education

School Name : *Maadi Narmar School**Dates From - To** : * 2008-2010**High School Certificate** : *IGCSE

Language Competency

English

Comprehension : Fluent**Speaking** : Fluent**Writing** : Fluent

Arabic

Comprehension : Fluent

Speaking : Fluent

Writing : Fluent

French

Comprehension : Basic

Speaking : Basic

Writing : Basic

Work Experience

Please give details of any work you have undertaken, indicating whether full-time, part-time, vacation work or industrial training etc (most recent positions first).

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

I have done many activities in my university life. One of them was being a member in the Help Club. It is a community service club. One of the most appealing jobs I did there was collecting money and preparing the Ramadan packs. We collected donations with a target of 100 packs for 100 families. Everyone did his best in collecting the money. When we reached our target I was really happy because I knew that it would affect those people's lives. Another activity was being a Public Relations Head (PR) in the Electronics Engineering association. This association's main job was to service the Electronics Engineering students, Faculty and staff. The PR committee's job was to market these services and make every one of the department know about these services and sometimes present the service to the whole campus not only to Electronics.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices? (300 word limit imposed) *

I knew about Unilever from the career day in my university. Then I researched a lot about it to know what is Unilever and what is the working environment there. I also had many friends who entered the Quest competition and they had a lot of fun and gained a lot of experiences. All these aspects made me eager to be one of Unilever's team in order to benefit from the

experience and add to it what I can.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

When I became the Public Relations Head in the Electronics Engineering Association it was my first time to be a head in any activity. It was a new environment because I didn't know anyone in the whole association but I had tasks to be done so I recruited members interviewed them to make sure they were qualified. I first made a meeting that had a game to break the ice between the members and I and the members and each other. I also introduced to them the functions of our committee the we agreed on a weekly interview in order to follow up with any new updates. In the next meeting we agreed together upon what are the tasks and how are we going to divide them and we continued like that in a very organised manner with set rules and fixed policies till the end of the semester.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result? (300 word limit imposed) *

I once had a project that was assigned to us by our professor. When I was choosing how to implement it I chose a really new way to do it. I had to take the risk in order to stand out from other teams. I also really wanted to learn this way of implementation because it was essential for any electronics engineer to know that way. It was a more difficult way but it was worth the effort because I learned something new and made me differ from the rest.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

The Electronics Engineering Association was not really successful the year before I worked at it. I took the initiative to join it because I wanted an association that would benefit my fellow colleagues and I. I was also very lucky with a team that wanted to make the change too. With the very hard work and the strong will of our team we managed to change the state of our association from a very dormant association that barely any student knows anything about to a very active one that everyone benefits from.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

The Electronics Engineering Association made a trip to Marsa Alam in Spring break. We had prepared for it for a very long time and we made a lot of effort but because the trip was very close to our exams no one applied. I had to think of a way to make people interested in going. We offered a 25% discount for the first five applicants we also kept sharing photos of the activities that will be done there in order to make people visualize them. This managed to increase our applicants a lot.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

Do you have any health problems that could affect your future employment? If yes, please specify:

Do you have any relatives in Unilever NAME? If yes, please give details:

Is there anything that has not been covered that you would like to mention? Are there any personal considerations that may be relevant to your application?

Have you applied to Unilever before? If yes, what did you apply for:

Have you attended a Summer Internship in Unilever before? If yes, please provide details:

Year :

Line Manager Name :

Have you attended/participated in any event/activation held by Unilever in the last year (e.g. Lecture, workshop, competition)? If yes, please provide details

Have you attended/participated in any activity held by other companies in the last year (e.g. internship, competition, workshop etc)? If yes, please specify
