We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

I played Basketball, ping-pong & Kung-fu (3rd on Alex & Matrouh in 2006), I make necklaces & draw on glass, I'm member in Caritas Egypt, Student Union of Academy, I have participated in Orphans' day this year, I love team work & I have the skills of Leadership, I have attended a session about presentation skills & CV writing at Bibleotheca Aldxandrina.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices? (300 word limit imposed) *

I have always heard about Unilever as a huge international company and I really want to work at Unilever to have a role in community; help & educate people to have a healthy pure & happy life. I have chosen "Finance" function because I like to count & to know the expenses & income to make a balance & making benefits or profits

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

I don't have problem to work individually, I ask professional people how do a task (procedures not to do with me). While teamwork, we divide equally the work according to our skills, so everyone work on sth he/she knows & like to achieve the task in total

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result? (300 word limit imposed) *

In my 1st year at college, I had problems in my Management project teamwork, so I worked individually in a very short time & I had to do everything by only myself, so I learned how to search & to make a project & that had helped me so much in my others projects teamworks in my 1st & 2nd year

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

When I was in my 1st year at college, I attended the final projects session of the 4th year, I learned new technics to make & present a project (like the order or methodology of research & Prezi Program), so I told my teamwork to use these technics, first they didn't approved so much then I have give them the movie of the session, then they totally accepted & we did it & the doctor was impressed.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

In my 2nd year at college, I had a course "Research Methodology" that I totally didn't understand how to study it, how to follow the steps, then I asked my doctor, my friends, read the book & read past researches & finally understand what to do.
