Responsibilities : Internship at Sumsung A.V , A.C and H.A Maintenance Service

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

• I am a Professional Tennis player. • First-Team Player in the Shooting Club Tennis Team. • Won the Egyptian Tennis League 2012 in addition to some Individual tournaments. • A Tennis Player on my High School's team. • Delegate for business crisis simulation ICGE (International Conference of global economy) 2012 • Organizing Committee for ICGE 2013 • Teaching English Language to kids in Resala Community Centre as a volunteer. • Organizing sports events at Shooting Club. • Played soccer on my High School's team. • I go to the Gym regularly.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

its well know n that Unilever is one of the most successful multinational companies and also one of the greatest companies as it w as found in 1929 so it has alw ays been my ambition to work in a great multinational company like Unilever. so that's why i am majoring in mechatronics engineering and its also why i w ork hard to keep up with my grades to have a high GPA and by doing some internships hopefully to get accepted.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

it w as my first internship and in the first day all the interns w ere divided into groups and w ere asked to do a task, it w as a w hole new environment for me as i w as in a group with people from different universities and even from different cities in Egypt, people are different so first i had to know how each person's way of thinking and to be very friendly to try to get closer to each one and gain their trust to start bonding. so i had to talk to each one individually to make sure he gets the correct image and to motivate every member of the team, it w as very challenging at first but i had to put all my effort to connect the team and to alw ays be positive and avoid all the obstacles to get the best result out of the group.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

When i decided to have an internship w hich w as absolutely a good decision as it gained me some work experience, confidence and developing of some new skills

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

when i first started in ICGE i w as in the organization committee, we found problems in the marketing committee as we had less people interested in the club than the previous years, although i'm majoring in mecatronics engineering but i'm interested in new stuff and exploring my skills, so i volunteered in the public relations committee(marketing). the first step w as to start in our small community in the university, for example, by creating a slogan for the club and to change a bit in the logo to make it more interesting and attractive, we made flyers and we distributed all around the campus and that added more members, another idea w as to expand the marketing through social media to target members from other universities, and then i used our original committee to make an event to make it more fun and interesting. the main obstacle w as the funding so we succeeded to get sponsors and to get the student union to help us. and as a result we raised the number of members by almost 50%.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

once i had a group project and we were behind our schedule and facing some troubles and a deadline so first i analysed each problem separately, then i found w hat w as the cause of each problem and different w ays that could help fixing each problem. then i had to link the team together and gave every member of the group a task to do and made some meetings to get conclusions and that's how i managed the team to work efficiently and got the work done before the deadline.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

I'm still an undergraduate student so any military service requirements would still be after i graduate
