Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

video games reading writing painting shopping programming

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

within my experience in my work of my graduation project i learned how to take the right decision and with voting in the decision . no alone decision is right ... decision group is always better and accurate with the more training and experience and taking this decision more than once .

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

new environment means new people, new place , and new tasks so .. when meeting people with new characters it should be respectively the following : reaching them quickly . and how to make your use of their skills and power to help in my task.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

when i tried to find how the limit of my power (brain power) i can use in my short life .. depending on my try .. i learned a new language new skills in my work .

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

using the appropriate solution to make the step of any task easier than past tries .. it was nice to make it different according to study , skill , or even experience ... in my teamwork in graduation project i told them the appropriate programming language to use in our system developing process .

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

many times but the solution is how many tries i have did in the same case the first time is now the same as the third or even last time . the learning curve must grow up :D
