Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

-Lecturing: Being a management workshop moderator at the Annual Conference for Engineering Students -Project Management: Working as project plan controller at Ain Shams University Racing team

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

Regarding Engineering and manufacturing function: It has been a personal experience after joining the automatic control diploma I became more interested in this field and I found that this internship is an excellent chance to learn more Regarding Supply chain: My cousin is working in this career and I have talked with him and I found that it's really interesting , in addition I like to know information about other fields rather than engineering

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

This was during my first year at the Annual Conference for Engineering Students in 2012 as an HR member a) Starting with the circle around me, my team after that the larger circle the committee and then the network became large enough to know each member in the entity, also working hard was helpful to make me well known among the crew b) Every person has his edge and we have to make use of this edge, I do my best to help people with things I can do (I'm a good analyst and problem solver) but I need people who can see the big picture so as to complete each other

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

1-Self learning: I have tried many times and I remember two cases 1.1 Photoshop I didn't have a strong motive so I didn't continue 1.2 MS Project I was in need for this program so I learnt it in a couple of days 2-Courses: Automatic control diploma, I have successfully passed the three tests (Automatic Control-PLC-SCADA)

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

During the Annual Conference for Engineering Students I have been in a team in charge of an academy that will prepare the crew for the upcoming year, although this team was small, working alone and have to do multiple tasks at the same time (choosing training, trainers, place for the sessions and calling the applicants) but we have managed this academy successfully regardless these obstacles

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

I have been in charge of monitoring the plan of a team that works on a technical project outside my field but I worked on these tasks as black boxes and deadlines so as to monitor them well

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

Undetermined. I'm going to apply for the military service in August 2014
