Personal Details

First Name : ahmed**Last Name** : sherif ismail**Nationality** : egyptian**Second Nationality (optional)** :**Age Range** : 20-23**Gender** : Male

Address

Primary Address

Address Line 1 : faisal st**Town / City** : * : giza**Country** : Egypt**Email Address** : ahmedmakhoulf123@gmail.com**Unavailable interview dates** :

Career Choice

Business unit : Mashreq**Function choice** : Engineering & Manufacturing**Second Function Choice** : Logistics, Planning & Procurement

Further Education

University : cairo university**Faculty** : engineering**Major / Department** : design&production/ mechanical**Graduation Year** : 2016**Degree/GPA** : 3.81/excellent

Secondary Education

School Name : *pyramids**Dates From - To** : * 09/15/2009 - 06/15/2011**High School Certificate** : *national

Language Competency

English

Comprehension : Fluent**Speaking** : Competent**Writing** : Fluent

Arabic

Comprehension : Fluent

Speaking : Fluent

Writing : Fluent

french

Comprehension : Basic

Speaking : Basic

Writing : Basic

Work Experience

Please give details of any work you have undertaken, indicating whether full-time, part-time, vacation work or industrial training etc (most recent positions first).

Dates From - To : 06/09/2013 - 08/07/2013

Employer : hands on engine components, brake system, workshop safety procedures, principles of management.

Responsibilities : BMW

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

project member at Space systems technology lab. which is a student managed research lab. SSTL team implement projects such as rovers, robots and compete in international competitions. project member is involved in designing, manufacturing and testing of project. also I am a member at Cairo University racing team which compete in Formula student competition by an Egyptian made racing car.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

during my work in SSTL project, I have been the manager of robotic-arm sub-team. I had to put time plan and distribute roles. I had also to survey the market to determine where to manufacture and how to provide materials.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

during the manufacturing phase in SSTL project, I managed to manufacture in a factory at ARAB organization of industrialization. in such factory I managed to finish my work on time by having good relationship with the technicians and by having my designs ready to avoid wasting the engineers' time, therefore they were very co-operative.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

during all my projects (academic or non-academic) always I am trying to be unique by introducing something new and valuable. therefore, I have been learning computer software to optimize my work such as modeling and simulation software(solidworks), numerical software(matlab). therefore, I studied courses & watched online tutorials and so, I won the first place in a robotics competition during my preparatory year in engineering, and during this competition I was the head of mechanical team.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

during my project in SSTL, at first, the competition stated that no international teams shall join, and so our team was out and all the team members were disappointed. therefore, I searched for another opportunity and I communicated with other international teams to find a solution and finally another international competition was holding and so, I spread the announcement of the valid competition for my team and the other international teams so that the competition gain reputation. and thanks god, the team is working now smoothly to achieve the goal.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

as a head for the robotic-arm sub-team in SSTL, I had a challenge to complete the sub-component by the end of mid vacation. the plan was going well. but due to an error in supplied motors and electronics which was discovered during the second semester, I had to make an emergency plan, it was hard to convince the team members to work during study and it was difficult to manage the tasks to suit the timetable of colleagues of different departments. but thanks god, we managed to correct the situation by making sacrifices and by putting deadline before the midterm exams.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

Do you have any health problems that could affect your future employment? If yes, please specify:

Do you have any relatives in Unilever NAME? If yes, please give details:

Is there anything that has not been covered that you would like to mention? Are there any personal considerations that may be relevant to your application?

Have you applied to Unilever before? If yes, what did you apply for:

Have you attended a Summer Internship in Unilever before? If yes, please provide details:

Year :

Line Manager Name :

Have you attended/participated in any event/activation held by Unilever in the last year (e.g. Lecture, workshop, competition)? If yes, please provide details

Event Name/Type : internship

Date: (MM/YY) : 06/13

Have you attended/participated in any activity held by other companies in the last year (e.g. internship, competition, workshop etc)? If yes, please specify

Company Name : BMW regional training center

Event Name/Type : internship

Date: (MM/YY) : 06/13
