Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

I am writing poetry. I have participated in many seminars and literary competitions in Egypt. I got many awards in classical poetry. As well as i play volleyball in Ghaziel-mahala club And participated in many tournaments . But most of my activity is concentrated in poetry and participation in cultural and literary clubs. When i was playing volleyball i take-away the responsibility of leading the team by virtue of that i was the Lipro so i take away the responsibility of leadership and the distribution of roles to play within playing ..

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

Since very early age and I adore Unilever. Watching its products in my home What's the secret behind this brands ?? . This idea has been spin in my head until I grew up. I got a high total in high school, but I wish to enter the College of Commerce because of my passion for the field of administration. I worked in the field of marketing in many companies even though I'm still study in college. Get high Gpa in Marketing always above 90% I spend my day walking around inside the company's website. It's really a great place to make professional cadres in all fields. I believe that the internal environment of the company helps to make effective leaders with high efficiency.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

When I was working in the ANB Egypt for Manufacturing, Packaging and Exporting Agriculture and Food Products I was working as marketing manager . they asked me to update all posters used by the company in E-marketing as well as the design of cartons for packing vegetables and sacks of grain. This was a very heavy burden because they wanted it in a record time. I did not sleep during several days to work on the implementation of this task, and this was the toughest position in the work have been faced me in my life .

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

every student now adays needs to develop himself to keep up with intense competition in the labor market. I know that the person who has a talent in one field , even if he is professional but because of his weakness on the other side . that will spoil everything for that person so he must balancing abilities so as not to waste his talents because of a decrease in some capacity. I knew that I'm brilliant in marketing. All professors have told me that . But I knew that it would not help me cause i'm not perfected in English . Most large companies such as Unilever does not recognize someone who has some weakness in the language so I'm working these days to develop myself in English for balancing between my abilities in marketing and the rest of the abilities .

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

Opportunity only comes to those who deserve . When I was playing volleyball. I played so many matches which i prove myself in it . there wasn't any opportunity to go to a famous Club until the day that was the coach of the national team is looking for players . Then I tried as much as possible, to prove myself So i exert all my efforts that day but I discover that there are other metrics to measure things that we don't know . my Fellow s were longer than me but less-skilled than me although that the coach choose them to play with national team And when i asked coach he told me (in berife) he told my that they are good raw material and in the national team they will be trained in good way). Like any large company such unilever , unilever don't accept any student from Governmental universities unless alex uni in the last quiz? This really happened. Not only the students passing by private universities such as the auc. Even though they can be less-skilled than others . This was the only chance i get in my life when I was playing volley . it helped me to create a good vision for things and judge things well. It was a wonderful addition to my experiences in life so far . What I mean is this long article that there may be a distinct person only needs a chance to prove himself but that will never happen now adays. the person who want to to get a chance must be a Super man. No fault or weakness in him . he must overcome all these obstacles. The wearer can create for himself a chance instead of opportunity comes to him .

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

When I worked as a marketing manager at Delta Academy for training and management technology. The market was crowded with many companies which worked in the same field . i have to put a professional marketing plan to overcome this problem. After a good market study shows me that most training centres did not meet the needs of students in the area . it was an opportunity to my center . At first i started collecting what people want? And what are their requirements and their needs? Then i asked the manager to employ a good Academy staff to meet customer requirements by providing good service then processing academy with better technology and modern means then i carry out intensive advertising in the city of Tanta, through make a free seminar. In this event customers know where the academic presentations. In short, I tried to make a good business name in the region with a good reputation (by viral marketing)

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.
