These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

to me i consider management as my passion, and i always wanted to have a career in a successful multinational company like Unilever.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

when i was the leader of the orientation this year which is one of the biggest events in our university, because of the circumstances of the country there was a short notice for the event, and there was no time for preparation and setting teams and tasks, we almost had half of every year's times for the preparation. we worked really hard, and we worked extra time to achieve our goal and we were able to set the interviews and choose our team, then we informed them about the short time we have and the tasks they should do, and everyone worked really hard, and the event this year was really amazing and organized.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

actually i was a very shy person, who sometimes lacked self confidence, i didn't like my life this way, and i wanted to change it, i wanted to work on my personality, and skills, i knew that i had a chance in college to develop my self and my skills, i started by joining clubs and activities, it was really of a great help, now i consider my self a sociable person, i have presentation skills, and able to give public speeches

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

at my internship at CIB there was a problem that people always go to tellers instead of using ATMs and this made a crowd, people most of the time are afraid of using ATMs, i had to convince them to use the ATMs as they are faster and easier and available all the time, but still they didn't like them because it's a new technology for them specially when depositing money, so whenever i've found a customer who was afraid, i go with him/her to the ATM and teach them how to use it and tell them all about its facilities and new options. my result was that in 6 weeks more than 70% of customers switched from using tellers to use ATMs.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

when i was chosen to be the project manager of the funDay of 2014, again because of the circumstances of the country the event was going to be cancelled and then they decided to bring it back in the last minute, there was no time, i had to put a plan from scratch for the day. i put a plan with another girl, we've head hunted our team from people we've worked with before, we trained them, we bought all the material, contacted bands and DJs, contacted all the new comers to inform them with the day and the program and everything. the outcome was that we've had a very good event, organized, and successful in the shortest time ever.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

Do you have any health problems that could affect your future employment? If yes, please specify:
