Dates From - To :

Employer : attended a 3 month training learning about everything in cras

Responsibilities : trainee at bavarian auto group

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

when i entered the university i had no clue about student activities but on my first year i joined STP ,a student activity at faculty of engineering, where i attended sessions about marketing and at the end of the year we had a 4 days simulation where we applied everything we learned. on my second year in college i joined IMEU as a delegate and credit club as a member (IMEU: a model at faculty of economics and political science , credit club: a student activity at faculty of engineering)i attended session related to politics and human rights at imeu, it was a life changing experience which encouraged me to enter this year as a secretariat. i am also an athlete. i do fencing and luckily i used to be a member of the national team.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic,

social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

i am just applying for an internship at unilever as everybody else , i am sorry but i don't have more information rather than the general ones about unilever

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

At STP simulation day, it was all about establishing a company and selling a product, it was quite a challenge i had to come up with some new marketing plans so i was able to communicate with some colleagues from other faculties with different mentalities to finish the task. for the influencing people part, i am an optimistic person and a hard worker, i always tried to set a functioning working environment , encourage team work and i am always trying to learn from others

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

last summer, i took the decision to take two courses about micro controlling. i took these courses first to increase my knowledge and secondly to learn a new programming language. i was able to apply this knowledge in my studies and use programming in more than one project

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

i had this opportunity at IMEU, we have a competitive environment with other models, so we had to achieve perfection in order to get the delegates, i had to enhance some of the delegates skills , this was a hard job for me because i was trying to help another human being to step up, face the world and do new things he wouldn't even dare to think of.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

this was also during the simulation at STP our company was losing money so me and my colleagues had to figure out something to return our company on the right track. so we had to change our company's strategy. the outcome was great we won the second place out of five teams.

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.
