Work Experience

Please give details of any work you have undertaken, indicating whether full-time, part-time, vacation work or industrial training etc (most recent positions first).

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

Well..I choosed this internship basically because I have been an only academic person..how eve, I wanted to stretch my know ledge beyond classroom borders.. besides studying am a member of FIMA group/operational stone team..and this is honestly my only activity beside my studies.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

Mostly IGCSE isa w hat made me a great favor in shaping w ho am I..gave me confidence on w hatever I am doing..I was mostly interested in engineering career, how ever, the major I wanted to attend was not"girly enough" so I shifted my academic interests to what I thought to make a better future career..I gathered up w ith people graduated from cmt and they told me how much they enjoyed a high level of proficiency along with fun..after reading course descriptions I decided to take my college certificate from accounting and finance department there.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

Once I entered college..I faced some subjects with obligatory Projects..i tried my bestto work individually , then it didn't seem to work w ell as projects grew heavier, I had to share it with others, influencing people w ho didn't like to work hard to actually do something.

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

In my middle school, i was in a philipines international school back in ksa.. and though I have been in a language school in EGYpt for my w hole life, I couldn't give a full sentence orally in English. I was put in that situation where all people in this school won't get a word of mine unless I spoke in english, I could study well w hile w riting but I had to be silent for more than a month w hen they were talking to me, trying to grasp one or tw o words to understand a sentence till I decided that listenening to english music, movies amd enhancing my listening skills are step one to talk in english fluently. Then after a 3 months I was excellent in speaking as much as I was in w riting.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *
