i am interested at social field . i worked before in charity like life makers in Insan project . in our project we help a family with small project which gain money to improve their life and take care of their kids life in different fields like education and health . i was the responsible for their education

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

people who help me in this decision are employers in Unilever company who came to my faculty and give me more information about the company . i choose manufacturing and engineering field because i trained in this field before and i was very interested in this field

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

it's required from me to do project in software which i never work in before . i have a bad connection to web sites . i called my friends to give me more information about basics in this software and i go out for net cafe and i downloaded a tutorial and watched videos who explain software . in this situation i learned how to get information in field that i did not know about it before

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

i took soft skills course to improve my presentation skills and Time management i used to be afraid from public speaking then i took the risk and now i have a courage to speak in public events

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

i hate study but i love mathematics . in secondary school i have a lot of problems in my family in final tests time . the easy way is not to study but i used this problems as a incentive to achieve my goal . then i go to faculty of engineering . finally i learned how to convert distress to opportunity to enhance my future

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

my graduation project is humanoid soccer robot .our objective is to participate in robocup competition I never had a robotics course in my department and it's required to know more basics about micro-controller and my supervisor is not Collaborator i took a course in micro-control and attended lectures in mechanical engineering department i read more tutorial in controlling field to make a good experience about robotics and now we start Execution robot .
