Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

My interests are reading and searching for new information and always trying to develop my self. In school, i used to play tennis and swimming, i used to organize trips and parties in the school. Also i used to go for hospitals and other places for charity. I used to go for places to learn doing handcrafts and acting. I never missed a party in school without acting or singing in it. In college a became Head External public affairs in enactus and i am a member in ISLC psychology workshop. I have a lot of experience and i am a good listener for helping and advising people.

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

Throughout my life, i always dream of working in marketing and promoting for new products. I have my own way for convincing people and i always have new ideas for advertising and marketing. I shaped my decision for marketing after working with my father and learning new ways for marketing and knowing that i have the talent for attracting and convincing people to buy what i am promoting for. My second choice was HR and i chose it because in my position as Head in enactus i used to recruit members and i had experience in interview a with people and choosing the best one for the position. Also, my daily life i am experiencing how to deal with people and i found that i have the talent to give people positive energy and talking with them in order to achieve their inner peace and reach their goals. I read about HR and i think that it is one of the most important functions in a company, because it works on training and development and i think that i am good in this, because HR developing for members is one of the reasons for the success of the company, because simply if they are trained and developed well they will give great job which will have a positive impact on the company.

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

a) when i became Head External public affairs in enactus my first task was to make interviews for people for recruiting new members so i began to read about how to be a good interviewer, then i began to plan my criteria that i want to choose from it. Then i had a task for planning an event outside the university in a hotel so i began to call hotels and i convinced one of the big hotels to make the party in it and then i had number of one of the important people who can reach me directly to any band or singer to have the contract with him and to come to our event. also, i had one of the tasks to cover an event so i called el ahram newspaper and reached the one responsible for covering the events and convinced him to come and cover our event. b) i asked my president to tell me tips about how to make an interview and i asked him to sit with him in one of his interviews in order to know more about how to be a good interviewer

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

I always like to read a lot in books of developing and personality to develop my self. So one day i decided that i will have a big position in one of the clubs, so first i began to read more books about charisma, how to reach your goals and how to be successful person. Then i had a chance to apply to be head External public relations and i applied in it because i really wanted to do so. Then i was accepted and now i am reading more to be a good Head and to reach my next goal to be the president of the club.

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

Before being a head in enactus, my team had a task to recover a big event so we will be evaluated for it for a competition. So i decided that i will be the one to recover this event, i was volunteering in it and i put plan with other members in the team to cover the event. I had obstacles with some people in the event that can talk in a harsh way or people that don't obey the rules so i began to talk with them in a good, proper way to convince them and explain for them our intentions for this rules and they were convinced and Everything in the event went perfect and then they told me that i had a point and i was right.

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

In ISLC psychology workshop we all work on how to develop each other and how to understand ourselves in order to understand other people. so in this workshop i had a complex situation to understand one of the members having a big problem so i took the decision that i will be the one to talk to her and help her in her situation and help her to get better. I began to talk to her and listen to every detail she says, because every detail was meaningful in the situation and i helped her till she solved her problem.
