Employer : <https://www.facebook.com/PurpleDevAlex> my responsibilities is to find data ,sponsors and places for any event and to search for the best deal with the best price and quality

Responsibilities : public relations staff member at purple development

Interests Activities

We are interested in what you do / have done outside your academic work.

Please record your non-academic interests and activities stating whether at school, college, university or elsewhere. Record any positions of responsibility you have held in any aspect of your life. (300 word limit imposed) *

when I was at school I was the head of the school library newspaper , after that at the faculty I joined the civil work my first work was with mr.ahmed refaat at Alexandria library (yesbu) then I joined Dleel alex early this year and now I'm working with purple development beside all that I'm a volunteer at sonaa' al7yah since 2009 and I help at the Algerian Embassy at meeting's time

These questions tell us something about how you respond in challenging situations. Please answer them using examples from your experiences in academic, social or working life

1. Please tell us about experiences and people that have over time shaped your decision to consider a management career within Unilever and in your chosen function in particular. What efforts have you made to test out your choices?(300 word limit imposed) *

my first experience ever was with sonaa' alhayah ,helping peoples and seeing the happiness in their eyes changed my life 360 degree after that any civil work it's a new life for me, just meeting all this people who want to help and develop their committee is a goal ,learning from them or just hearing their ideas really made me think about my future and my responsibilities to my country ,finally all my experiences even if they are few made me think in a creative way also I became a hard worker and very organizer and effective in my place

2. Using an example of a time when you were in a new environment and had to achieve a task, please describe a) how you established and used a network of contacts, and b) how you set about influencing people, to help you achieve your task. (500 word limit imposed) *

the nearest example was today I had a task to find data for 80 family that have an autism children so I called my old friends at sonaa' al7ayah and after five calls I reached the head doctors at the organization I explained the event idea so he was very welcoming and accepted to give me the data that I asked and extra help from his team ,by the way was the autism day that I'm working on is sponsored by unilever and the WHO so I hope it will be successful and make you proud

3. Tell us about an occasion when you have taken the initiative to learn and develop yourself in significantly new ways. Why did you want to do this, what did you do and what was the result?(300 word limit imposed) *

first we learn something new each day without putting it in mind but I always wanted to learn the online marketing I spend hours on the internet on social websites so I asked myself why I don't spend that time on something useful so I joined a course of e-marketing and I am learning now and it's very interesting

4. Tell us about a time when you saw the opportunity to really make a difference for the future of an activity, team or organization. What did you do, what obstacles did you overcome, and what happened as a result? (300 word limit imposed) *

when I participated at the water Campaign at school we were telling students about how to water and more about Water conservation I have found that they need to know more about life so I thought about making other campaigns concerning developing school students ways of thinking it's like giving them soft skills for life and I told the idea to my leader and we are working on it

5. Tell us about a time when you have had to analyse and understand a complex situation in order to make decisions and put a plan into action. What did you do and what was the outcome? (300 word limit imposed) *

working as an OC made me front lots of complex situations but in anyone I always search for a solution by asking my team opinion ,voting ,I try to analyze every simple detail or information beside I always have plan B and C but the hardest situation I have ever faced when I was in a trip to Cairo and I was responsible about 50 people and the bus had an accident and we didn't know how to come back to Alexandria, my plan B was to keep a sum of money for any bad situation but the problem was how to find a bus in a short time considering that I don't know Cairo's streets that much but in the end I have found a bus and we were back with only one hour delay

General

Please give details of any military service requirements, with reasons for any exemptions claimed. If you have completed your military service please state when. If you have answered Exempted above, please specify the reason you were exempted.

none
